**Dear Mr. Adam Pawlus!**

Let me express my deepest respect and sincere gratitude for acquaintance with you during a meeting in Jaslo.

Visiting your city and meeting with you left the most pleasant impression. Your sincerity and concern for the problems faced by our city in particular and Ukraine as a whole are important to us. It gives us new strength to overcome the enemy.

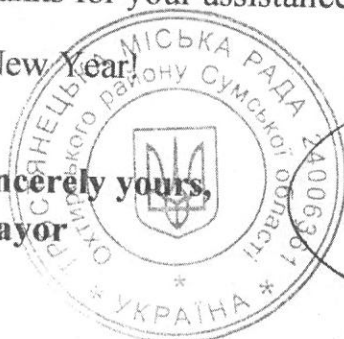

We would like to thank the medical staff of the hospital of your city for the assistance provided to the Trostyanets City Hospital. This assistance includes: ambulance "Mercedes", a washing machine, a vacuum cleaner, medicines, etc. All of the equipment was solemnly handed over for the needs of our hospital. With deep gratitude, the Trostyanets doctors accepted a helping hand from their Polish colleagues (photo attached).

We hope that fruitful cooperation between Trostyanets community and Jaslo will continuing. In particular, between our medical institutions. Poland experience in the health care sphere reforming is the mark for us to provide such reforms in Ukraine.

Send you sincerely greetings from Trostyanets community and Ukraine as whole. Once again, much thanks for your assistance provided to municipal institutions.

Happy New Year!

**Sincerely yours,  
Mayor**

**Yuriy BOVA**
